

# Data Analytics Process.

LOHITH KUMAR.A

Eg:- Going for a trip.

Plan:- Will decide about the place to visit like Devotional (Tirupathi / Srirangam / Kanchi) (or) Fantasy (Goa).

Prepare:- How much cost we can afford for the trip and how to save the money for it.

Process:- Will decide about the travelling mode like Car / Bus / Train & food expenses.

Analyze:- Check which mode of transport will cost less and check for availability of дешханам tickets.

Consider when college gives consecutive holidays.

Share:- Communicate with friends about trip and come to conclusion.

Act:- Finally, book train tickets [with return for Tirupathi from Bangalore].
